Barclay Downs Members:

Just a quick update on the tennis program at BD as we slowly reopen operations. Thanks to all our members for following the guidelines we have put out. We are very much in line with most clubs right now and need to show that the Charlotte tennis community is very serious about safety. Just a reminder of a few things:

- Please leave gates ajar so people do not have to touch them entering or leaving. Pros are cleaning gates every day.
- Play is singles only. Use two cans of balls and do not share balls with the person you are playing with. The only exception is family doubles with family members who have been living together through all of this. Hopefully we can open up to doubles soon.
- Please limit your play to 45 minutes if people are waiting for courts.
- We have spray bottles with hand sanitizer in them on the tables outside the tennis office. Please use them. The bathroom is still locked.
- The water fountains have been roped off. Please do not use them.
- The pros are seeing lots of new faces which is great. We may introduce ourselves when we see you. Feel free to ask us any questions you may have.
- At this time, please don't send kids to the courts unsupervised.

We are thrilled to be playing tennis again. All the pros are teaching one, two, and three person lessons. Contact us if you want to get out there.

See you on the courts soon,
John Williams
